

OBJECTIVE:

Owner of Store wants us to help them create a dashboard to track and analyze their online sales across India

Project Learnings:

- ▶ Created interactive dashboard to track and analyze online sales data
- ▶ Used complex parameters to drill down in worksheet and customization using filters and slicers
- ▶ Created connections, join new tables, calculations to manipulate data and enable user driven parameters for visualizations
- ▶ Used different types of customized visualization (bar chart, pie chart, donut chart, clustered bar chart, scatter chart, line chart, area chart, map, slicers, etc)
